

Yearbook Honors Summer Assignment

Please review the following resources, instructions, and steps in order.

Please email Mrs. Kistner at kistner.deana@cchs.us and share with her an email address that you will be checking frequently throughout the summer. She will use this address to contact you if needed.

Resource Slide-Shows and Video

[Dare to be Square](#)

In order to complete the summer assignment you will need to first review the above slide-show presentations as well as the video. These are designed to help you learn how to "Yearbook".

Even if you have taken Yearbook before, you will find that several pieces of information in these presentations differ from what we have done before. **Your assignment should reflect the information in these presentations rather than what you have done previously in the course.**

Once you have reviewed each of the above presentations, you will create a Spread in eDesign, our yearbook design software.

Please read and follow these instructions carefully:

1. Complete a Notability "Pitch" for your spread. It should include the following:

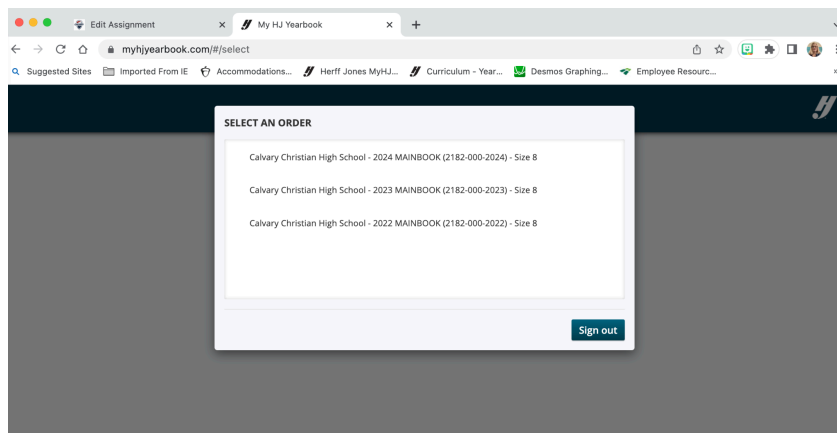

- Topic of Spread,
- Angle or "Spin" (what creative take are you using to tell your story through?)
- 4 headline options for your spread

- A list of the type of photos you want to use
- A list of questions you will ask your interviewees
- Rough drafts of the copy and captions you will include on your spread
- Color palette for your spread
- Font choices (select 2) for your spread
- Extras you can choose to include if you'd like: mock-up of the cover, mock-up of the folio (the artwork at the bottom of each page beside and including the page number.)

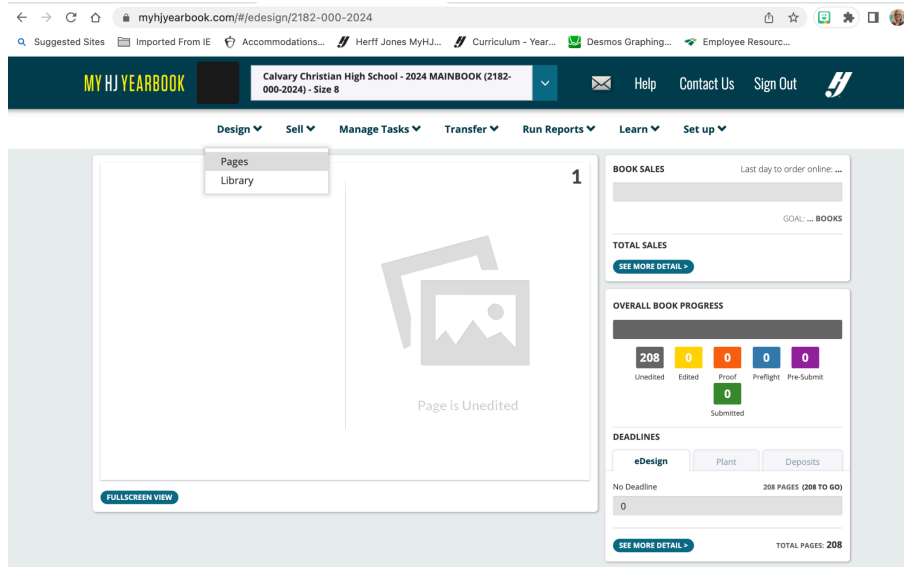

Using the "design board" you created

2. Log in to eDesign at www.myhijyearbook.com using the login credentials I will provide you individually via email.

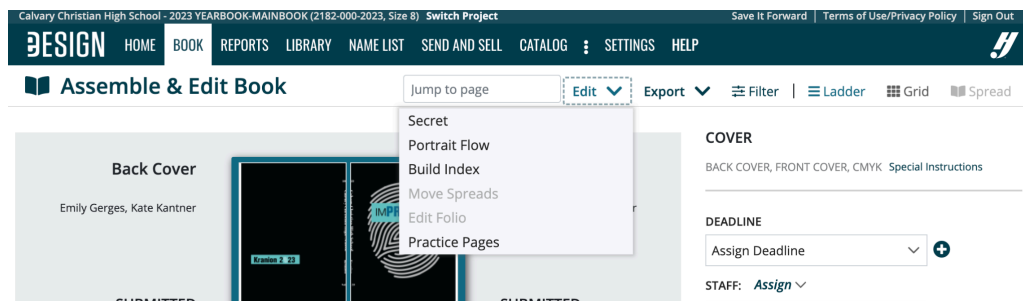

3. Select "2024 Mainbook".

4. Select "Design" and "Pages".

5. Select "Edit" and "Practice Pages".

6. Design this page as a spread that either:

tells the reader about you OR

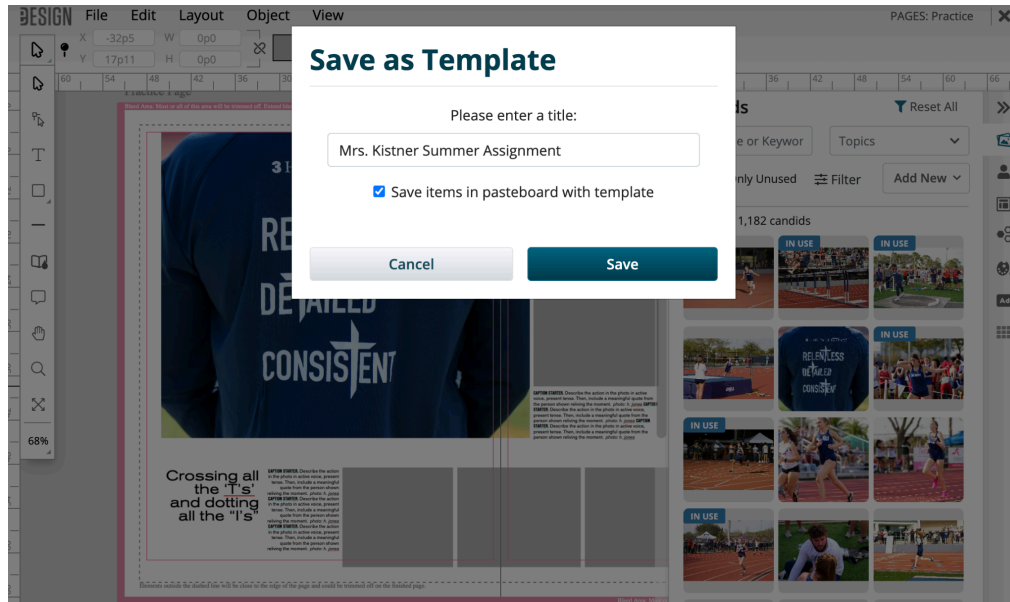

explains to the reader your theme suggestion for the 2023-2024 yearbook.

***Very Important:** You will have to save your practice page as a template as you work or you will lose all your work as soon as you close the web page or your device. * Use the following instructions:

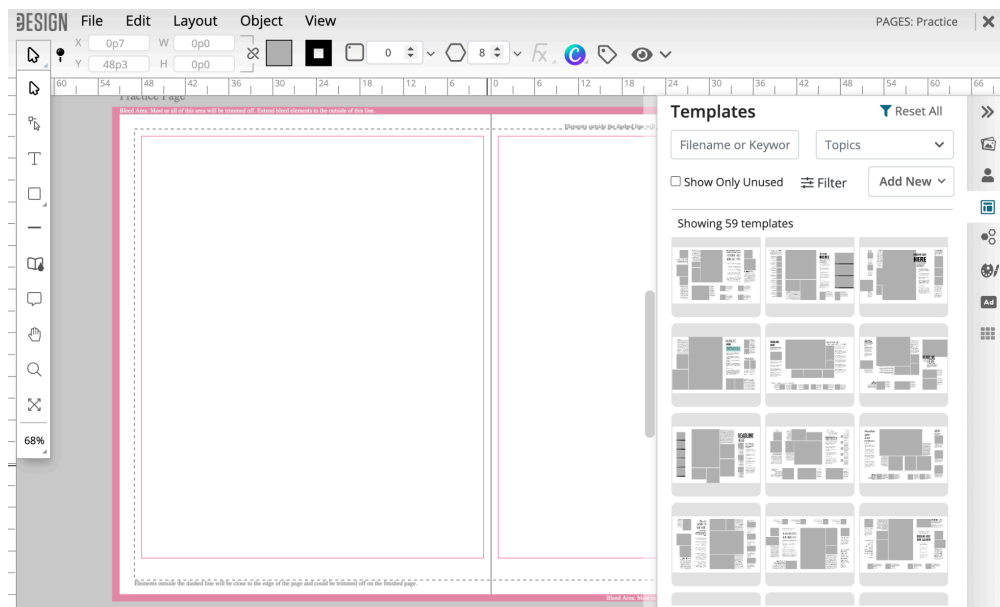

a) select File, Save as Template

b) name your template with your name and "Summer Assignment."

c) click on "Save Items in Pasteboard with Template"

7. Use a template for your spread from the templates folder.

8. Fill in the template with all of your spread pieces.

9. Proof your spread using the [attached rubric](#).

10. Have someone else proof your spread.

11. Submit your spread and design board here as PDF's.

If you have questions please email me at kistner.deana@cchs.us. I will be checking email periodically throughout the assignment.

Please note: This assignment is due 11:59pm July 5, 2024.
